

Firmware Version: L411-402NCM-C01_R10

- Filename: 3G15Wn-L411-402NCM-C01_R10
- Date: 11, March, 2010

Fixes / Changes

1. Added MTU in WebUI
2. Added Quick setup wizard

Outstanding / Known Issues

None

Upgrade Instructions

1. Connect the computer to any LAN socket on the 3G15Wn.
2. Open the web browser (IE, Mozilla firefox, etc) on the computer, type in <http://192.168.1.1> on the address bar, and then press Enter.
3. On the Top menu, click on Management > Device Settings > Update Firmware;
4. Click on the Browse button to search your local hard drive and locate the firmware to be used for update. Select the firmware file and press Open.
5. Click Update Software to proceed. It will take a few minutes until a message show up to indicate the upgrade succeeds.
6. Do not turn off the modem during the upgrade.
7. Please double check if the software version is L411-402NCM-C01_R10 as shown in Home page, go to next step if it is, otherwise, please go back to step 1.
8. Firmware upgrade is done.
