

Modem / Hotspots / Access Point / Bridge:		
Product	Plug Type	Connector Needed
NB5580W	 <p>RP-TNC Male Plug</p>	 <p>RP-TNC Female Connector</p>

If you wish to connect an external antenna to the NB5580W you will require an alternate cable/connector due to the NB5580w plug type.

NetComm can provide this cable under code CB260 (internal reference) which is approx 1metre in length, please contact our Presales department if you wish to purchase this cable.

If you are requiring a longer cable length for your circumstance, NetComm is happy to refer RFI Industries who can custom make the cable to your desired length. Their contact details can be found at <http://www.rfindustries.com.au/rfcontactUs/branches.htm>
