NETCOMM WIRELESS SIGNS GLOBAL M2M DEVICE SUPPLY AGREEMENT WITH VODAFONE

3 October 2012 (Sydney): NetComm Wireless Limited (ASX: NTC) a leading developer of both wireless broadband and Machine-to-Machine (M2M) products, today announced it has signed an agreement with Vodafone Global Enterprise, Vodafone's specialist enterprise communications organisation, as their supplier of M2M IP modems for global deployment.

Under the agreement, NetComm Wireless will supply M2M IP modems that have been custom designed to meet the global deployment requirements of Vodafone and its partners. The device will be compatible with Vodafone networks worldwide and will be managed by Vodafone's Global M2M Platform which enables plug-and-play service provisioning, remote management and support across the globe.

Advances in wireless technology have opened up extraordinary opportunities for business and enterprises worldwide and M2M growth is at a record level as a result.

Devices are scheduled to be available to the market in March 2013. This is an ongoing supply agreement and the size of revenues will directly relate to the success that Vodafone has in securing M2M contracts.
