

Information

- Product Code: HS1100
- Firmware Version: 1.00.01
- Build Number: 01200
- Beta/Official: Official
- Filename: NetComm_HS1100_1.00.01-EN-E_01200.rom
- File size: 9.31MB
- Date: 12 August 2009

Upgrade Instructions

Please refer to the following instruction for HS1100 device firmware upgrade via its HTTP/HTTPs management interface:

Step 1: Connect an Ethernet cable to one of the LAN port of the HS1100. Open the HS1100 web management interface by using the following login details

Default LAN Mgt IP address: <http://192.168.110.1> (LAN1/LAN2)

Default admin user name: admin

Default admin Password: admin

Step 2: Once you are at the HS1100 web management interface, navigate to **Utilities > Firmware Upgrade** > browse for the HS1100 firmware file: [NetComm_HS1100_1.00.01-EN-E_01200.rom](#) then click on **Apply**. (Refer to screenshot below)

The screenshot shows the NetComm HS1100 web management interface. The top header includes the NetComm logo, the text "HS1100 - Wireless HotSpot", and links for "Logout" and "Help". Below the header is a navigation bar with buttons for "System Configuration", "User Authentication", "Network Configuration", "Utilities", and "Status". The "Utilities" button is highlighted with a red box. On the left side, there is a sidebar with buttons for "Network Utilities", "Change Password", "Backup/Restore Settings", "Firmware Upgrade" (highlighted with a red box), and "Restart". The main content area is titled "Firmware Upgrade" and contains a note: "Note: For maintenance issues, we strongly recommend you backup system settings before upgrading firmware." Below the note is a table with the following data:

| Firmware Upgrade | |
|------------------|---|
| Current Version | 1.00.01-EN-E |
| File Name | C:\Documents and Sett <input type="button" value="Browse"/> |

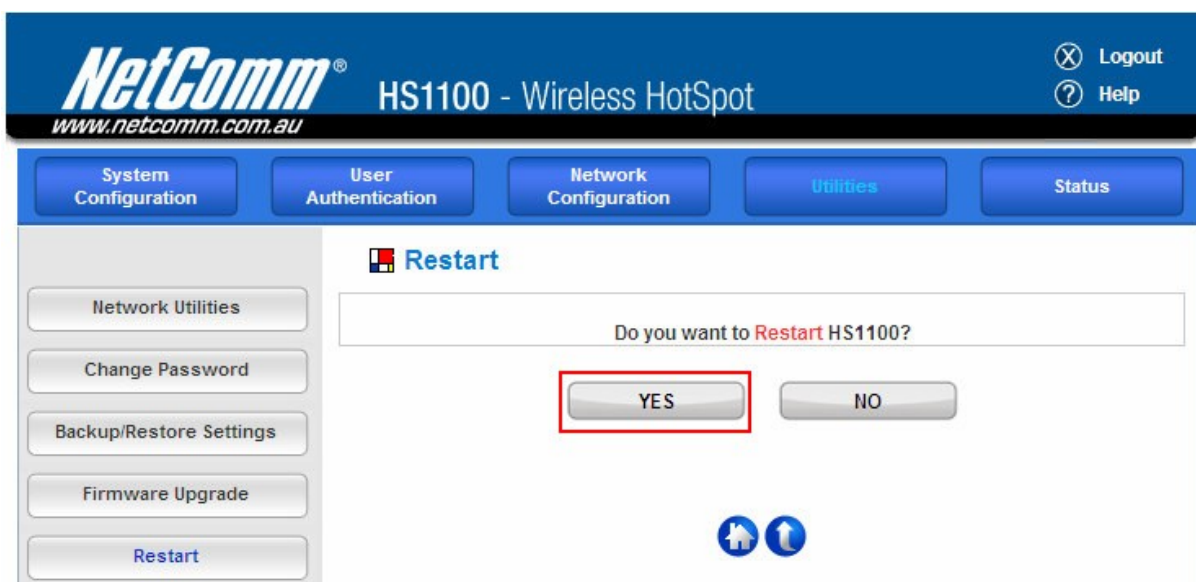

Below the table is an "Apply" button. At the bottom of the page, there are two circular icons: a home icon and an up arrow icon.

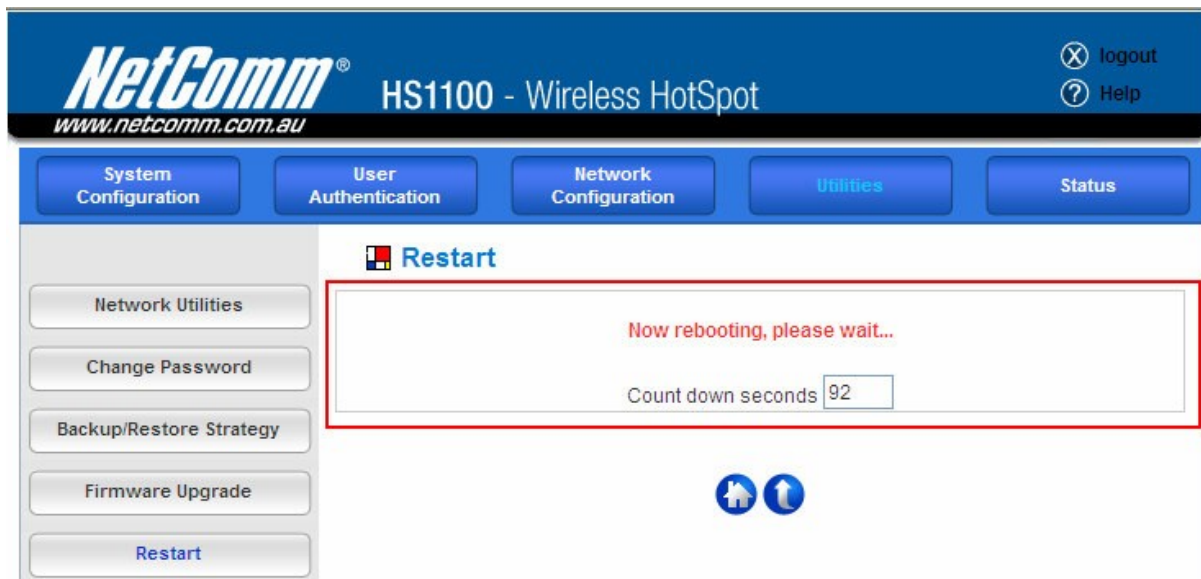

The LED light of the connected Ethernet port will now flash rapidly as the firmware is being transferred to the HS1100.

Step 3: Please note that HS1100 firmware upgrade will take approx 3 to 4 minutes; please wait for the firmware upgrade status bar to complete and wait for the following upgrade-success message to appear and ask for system Restart.

Step 4: Click on 'RESTART' in the page presented above and 'YES' to restart the HS1100 after successful firmware upgrade.

NetComm® HS1100 - Wireless HotSpot
