# Roadster V.92

## THE NEW STANDARD FOR THE FASTEST CONNECTIONS

### THE FASTEST, MOST RELIABLE CONNECTIONS\*

Your NetComm Roadster carries the very latest V.92 technology to cut the time it takes to connect, along with V.44 compression to speed Web browsing and download speeds.

\* Your Internet Service Provider must support the V.92 standard for these features to work. If a V.92 connection is not available, this modem automatically reverts to the 56K V.90 mode.

### DESKTOP FAXING

Send a fax electronically direct from your PC without leaving your desk, file it with your other documents on your network or PC hard drive, and take no more than one minute from beginning to end. Even if you only send five faxes a day, you'll save nearly half-an-hour with the easy-to-use bundled software.

### TELEPHONE ANSWERING MACHINE (TAM)

With the NetComm Roadster, you not only get a modem, but an 'Out of Office Assistant' as well. TAM lets you set up multiple voicemail boxes, one for each member of the office or family.

### FLASH ROM UPGRADEABLE

If the need arises to update your firmware, the NetComm Roadster V.92 can be upgraded directly from our website.

### ULTRA CONNECT

The Roadster V.92 is more efficient than ever. Ultra Connect is NetComm's enhanced technology designed to manage

connection to your ISP (Internet Service Provider), negotiating aggressive transmission speeds for faster connections, downloads and web surfing.

### CALLER ID†

NetComm's Roadster V.92 allows the display of caller numbers, giving you the option to filter your calls before answering.

### DISTINCTIVE RING SUPPORT† FAXSTREAM DUET™

The Roadster V.92 can automatically distinguish between an incoming fax or voice call on a single telephone line.

† Your telephone service provider must first enable this service.

## CHECK THESE GREAT FEATURES

- Now with V.92\* for the fastest, most reliable connection with full V.90 auto fall-back capability
- Accelerated Web Browsing & Ultra-fast upload speed with V.44 compression and 48K PCM Upstream
- Improve productivity by sending faxes directly from your PC using the free bundled software
- Connexant chipset for proven reliability, increased data speeds & optimised connection rates

- NetComm CD including Fax/Data/Voice communications software
- Standard telephone connection cable
- Serial connection cable
- Roadster sound cable
- User Guide
- Power pack

## DESKTOP FAXING

## TELEPHONE ANSWERING MACHINE (TAM)

## IMPORTANT INFORMATION

Do not connect your modem to a digital phone line or digital PABX. 56Kbps is the maximum download speed and 48Kbps is the maximum upload speed. Both are subject to telecommunications carrier service. Your Internet Service Provider must support the V.92 standard for V.92 features to work. If a V.92 connection is not available, this modem automatically reverts to the 56K V.90 mode.
