

## **Changing the Default Administration Password**

(3G15Wn)

## Changing the Default Administration Password

Changing the default password (and username)\* allows you to prevent unauthorised access to the administration page of your 3G15Wn modem/router .

Technical Support are unable to obtain your username and password.

If you forget your administration page login details, you will need to perform a factory reset to restore the default username and password of **admin**.

This will also clear any stored settings on your 3G15Wn modem/router.

\* - If supported by your model of modem / router.

## Changing the Default Administration Password

This guide will take you through the process of changing the password required to login to the administration page of your 3G15Wn modem/router .

1. Navigate to <http://192.168.1.1> in a web browser using "admin" as both the username and password.
2. Select **Management > Access Control > Passwords**.

### Access Control -- Passwords

Access to your router is controlled through four user accounts: admin, support, basic, and user.

The user name "admin" has unrestricted access to change and view configuration of your router.

The user name "support" is used to allow an ISP technician to access your router for maintenance and to run diagnostics.

The user name "basic" has restricted access to change and view configuration of your router.

The user name "user" can access the router, view configuration settings and statistics, as well as, update the router's software.

Use the fields below to enter up to 16 characters and click "Apply/Save" to change or create passwords. Note: Password cannot contain a space.

Username:	<input type="text" value="admin"/>
Old Password:	<input type="text"/>
New Password:	<input type="text"/>
Confirm Password:	<input type="text"/>

Apply/Save

3. Select "admin" in the **Username** field.
4. Enter the **Old Password** as "admin" or whatever the current administration password is.
5. Enter the new password you wish to use into the **New Password** field.
6. Again enter the new password you wish to use into the **Confirm Password** field.
7. Press the **Apply/Save** button.

On navigating away from this page you will then be prompted to re-login to the administration page. Remember to use the new password (and username if you changed it) you have just entered.
