

USB Storage Setup Guide

(NB604N)

Configuring NB604N for USB storage service

This guide will take you through the steps of accessing the USB storage device through the router. Ensure that the USB storage device is already connected to the USB port of the router before proceeding with the guide.

1. Navigate to http://192.168.1.1 in a web browser.

(-) (-) (-) (-) (-) (-) (-) (-) (-) (-)	ク → Ċ × O Broadband Router ×	☆ 🔅
	Windows Security The server 192.168.1.1 at Broadband Router requires a username and password. Warning: This server is requesting that your username and password be sert in an insecure manner (basic authentication without a secure connection). 	OK Cancel	

- 2. Enter "admin" for both username and password when prompted then click OK.
- Go to Advanced Setup > Storage Service > Storage Device Info and check that there is an entry in the Storage Service Table. An entry in the table means that there is a USB storage device connected to the router.

NetGomm						
Device Info			Stora	age Service		
Basic setup	The	Storage service a	llows you to use Stora	ge devices with	modem to be m	ore easily acces
Advanced Setup		-				
Layer 2 Interface		Volume Name	Physical Medium	File System	Total Space	Used Space
WAN Service		usb1_1	PhysicalMedium.1	vfat	7632MB	2635MB

Power Management						

4. Go to Advanced Setup > Storage Service > **User Accounts** then click **Add**.

5. Create a new user for the storage service then click on **Save**. The example below shows that the new username is "netcomm". Take note of the username and password as you will need it later on to access the USB storage device.

NetGomm	
Device Info Basic setup	Storage User Account Setup
Advanced Setup Layer 2 Interface	In the boxes below, enter the user name, password and volume name on which the home directory is to be created.
WAN Service LAN NAT Security	Username: netcomm Password: Confirm Password: Useb1 1
Parental Control Quality of Service Routing	
DNS DSL UPnP DNS Provo	(Apply/Save)
Packet Acceleration Storage Service	
User Accounts Interface Grouping	
Power Management	

6. Once you have clicked Apply/Save, you will see that the user has been created.

Power Management

Accessing USB hard drive Connected to NB604N using a Windows PC

1. Now exit out from the NetComm router's WEB Interface page and open up the "Windows Explorer" and type **192.168.1.1** on the top address bar.

Note: *Windows Explorer* is different from the *Internet Explorer*. You can open a Windows Explorer by opening *Computer* or *Documents*.

2. When prompted for login details, type the Storage User Account username and password. The example below uses "netcomm" as the username.

Windows Security
Enter Network Password Enter your password to connect to: 192.168.1.1
netcomm •••••• Domain: TECHSUPPORT-PC Image: Remember my credentials
OK Cancel

3. Once you have logged in, you will be able to view and edit the contents of the USB storage device.
